

## To all on the World Peace Alliance Mailing:

We will be brief on the subject of soulmates, because there are other important issues to discuss now. Why do we discuss soulmates here? It's because the peace we wish for in our world must include peace within individually, peace between the sexes, and resurrection of the spiritually healthy, and free, family that the globalists, through social engineering, have largely dismantled.

In former mailings, which are on the archives page of...

we presented the fact that first of all, one realizes their own soul, then the soulmate. However, we presented one source, <http://www.soulmatesecret.com/>, Now, for a new one, [Dick Sutphen](#).

So, it is primarily the soul of a soulmate one is seeking. If you are already in a soulmate relationship, you seek preservation of it in physical form, and finding deeper understanding with your togetherness. Since it is the soul, then there is no need for a huge number of details that one seeks in the other to obscure your vision. In many cases, when many details were entertained before meeting the destined partner, it was perception of a future reality rather than determination of it.

So, with unconditional love you look at the soul of your individual self, that of the other, and combined. What do you see? There is far more than selfish desire, but rather the **DIVINE** purpose.

Meditation to bring us world peace is an essential factor, but it's not all we have to do. See **WHAT TO DO** [here](#).

Okay, now for some [late news](#) and what it means for freedom of the people worldwide. It means that, to a great extent, the justice system in the U.S. and elsewhere (that the “elite” have been making moves to take from us) is still, to some extent, intact. Jesse Ventura, the former governor of Minnesota, is suing the TSA for unlawful sexual abuse. Publicity of the lawsuit is having a major effect on people worldwide, reawakening them to the fact that we have the right of dignity. The fact is, the “underwear bomber” [incident](#), the excuse for this outrage, was **PROVEN TO BE** a hoax.

Barry Soetoro's (aka “Obama”) State of the Union address joke about these insane practices will prove to be a major factor in the dismantling of the globalist scheme of planetary takeover. These people are bringing about their own downfall. As history proves, the lust for power contains within itself the seeds of self destruction.

The system is crumbling. We, the people, are winning! With confidence, continue to focus on world peace and prosperity. Note the effects, that meditation and outward working activism, is bringing about world peace and prosperity. Much of the “elite's” agenda has been stopped.
