So here's the thing...

When I first started manifesting, in many ways, it was like learning to ride my first push bike. There was some frustrating stumbling, falling and failure. But as my dad use to say to me 'persistence is the key'and one day it just clicked.

If you've been trying as hard as you can to get it right--well, that's your first problem (the TRY part!)

But the second thing is--it's really so much easier than you think once you understand a few key elements to your manifesting success.

And I'm happy to tell you none other than the 2 great Bob's- Bob Proctor and Bob Doyle- have the answers for you!

[Bob Proctor and Bob Doyle Show You The Way]

You may remember the 2 Bob's from The Secret--and from the absolute gold mine of knowledge they share all over the globe.

Now, Ryan Higgins from Mind Movies sits them down for 2 very revealing chats...

First, Bob Doyle explains the The Law of Attraction "101"... and how to use it in your life NOW to manifest whatever it is you most desire. This energizing chat simplifies visualization in a way I've never seen before!

Then, Bob Proctor explains exactly where effective visualization begins. He just has such a fantastic way of laying it all out, I'm sure you'll get a whole new perspective that will actually be very exciting for you.

In my opinion, this kind of conversation is way overdue when it comes to the essentials and TRUTH about the Law of Attraction and how it all works.

Because it's simply not just some flight of fancy or make-believe exercise--the Universal and unchanging laws that make EVERYTHING happen for you are grounded in science!

Now don't get nervous or anything--you don't have to be able to unravel an equation or know a test tube from a Petrie dish--all you have to do is step up to the plate and agree to make this a habit you do every single day...

[Practice Makes Perfect--How To Manifest ANYTHING You Want]

<http://www.mindmovies.com/mm21/bobproctor/bobdoyle.php?18848>

The biggest mistake most people make with manifesting is throwing in the towel when what you want doesn't materialize immediately.

Hey, it doesn't work like that! :-)

I mean, on the one hand, it works so darn fast it will make your head spin--especially when you consider how hugely this can transform your life forever. It DOES take some time, with a dedication to visualizing what you truly want in your life every single day.

But it doesn't have to be difficult or complicated, or even very time consuming.

It just has to be done regularly like clockwork. When you do that ONE thing, hold on to your hat--because some really incredible, almost magical, things will start to happen in your life!

[Feels Like Magic But It's Real]

<http://www.mindmovies.com/mm21/bobproctor/bobdoyle.php?18848>

The magical part is so real, Ryan explains exactly how he vaporized a whopping \$70K in debt in only three short months.

If you've got some financial "issues" you're really going to want to watch this very closely--it could be the key that unlocks the door to your best life yet.

So take a look--and get started doing exactly what the two Bob's say. You'll find it just could be the missing piece of your manifesting puzzle.

And be sure to let me know how things are going for you OK?

To your manifesting success,

Bruce

P.S. Have you ever thought about how you've been programmed since you were a kid to accept whatever life hands you?

No offense, but that is the biggest load of horse puckie since Columbus said the world was flat! You can truly RE-program your thinking to attract the most astounding things into your life.

Just watch the video, OK?
