## Integrity, honor and peace

Early in my life I learned of honor. One example of an honorable person is one who keeps his or her word.

The absence of war in the world is dependent upon peace within the people who dwell on this planet. But integrity also plays a part.

A building with a good foundation does not fall into the ground. It has a good foundation. It is straight, does not lean, and it will not crumble from its own weight. It is said to have been built with integrity.

When you listen to the radio, and watch the TV in so many parts of the world, notice how much of it consists of lies. Words coming from the governments consist -- so much -- of lies. These governments are crumbling structures. Lies are commonplace between members of families, rotting the structure of this sacred institution all over the world.

And, the NEW WORLD ORDER (NWO) itself is crumbling. See my book, [WORLD ORDER DEATH](#). The NWO has, for many centuries, been perpetuated by lies, engineered mass starvation, instigated wars, and mass murder. One of the most insidious lies from the NWO is that of an alleged [overpopulation, and global warming/climate change](#).

In Ferguson, Missouri, right now the **NEW WORLD ORDER** is attempting to bring chaos, and by spreading the conflict cause an excuse for military rule in the United States. This would lead to a civil war which the "elite" want, because they will likely be safely guarded. I don't believe civil war will occur in the US because too many people in both the [military and police forces](#) know what is happening, and will prevent it.

A little over a year ago, [Sheriffs all over the US stood up](#) against the US Federal Government's attempt at gun control. They were successful.

We cannot have world peace without integrity, and many people who see through the lies.

In the United States we have a Constitution. Now that so many people know the essentials of this document that constitutes our country, it is being respected by State and other local entities. It has little respect within the Federal Government, but as long as ordinary people, and [state and local governments](#) demand adherence to it, it continues to have power.

It is a bedrock of integrity in this great nation.

Two very important parts of the US Constitution are the guarantee of speech freedom, and the right of firearm ownership. When the people have those, there is peace. Free speech means the availability of truth. Suppressed speech means far more lies, or a *lack of integrity*. Right now, for those willing to [research](#), we have truth becoming more and more commonplace in the US and many other parts of the world. And, [guns in the hands of citizens brings peace](#). History of the 20th century reveals that many millions of people who's guns had been taken were murdered by their governments. That's hardly a peaceful situation. Great men who knew history wrote the Second Amendment which says, "...for the security of a free state, the right of the people to keep and bear arms shall not be infringed." It has been proven, by history, to provide for their security, and safety, because history proves that no government can be trusted.

The [family is the integrity of any people](#). When so many families fall apart, or are never [formed](#), the people disintegrate and degrade. That is history.

Some lies bring slow destruction upon those who tell them, and those who believe the falsehood. Others are immediately devastating. When a man tells the lie to a woman who loves, and trusts, him that he will be with her as long as he lives, that is extreme cruelty. It reaps a whirlwind of KARMA. One thing that my mother told me was never to make such a promise to a woman unless you mean it. I was never a blind believer in whatever my parents said, but I have always been intuitive, knowing what to believe, and what not to. That admonition has been with me all my life, and it has served me well. This is one example of how our personal lives are so pertinent to our own personal inner peace, and how that affects the peace in our world.

It is important to maintain integrity in our own personal lives, and that means we each have to be sure we are telling ourselves the truth about the path we are following, and how we care for others.

If you have not looked at WORLD PEACE ALLIANCE [www.worldpeacealliance.com](http://www.worldpeacealliance.com) in some time, please look again because the information, often enough, needs to be refreshed for many of us. The video of Gregg Braden is particularly important.

You have been on our mailing list for some time because you asked to be placed there.

Peace, both inner and outer, for you all...
