Gregg Braden tells us some of [The Secret](#) in his videos and books, but he does not mention the people who are behind much of the havoc on the planet. The people who created “[The Secret](#)” [Video](#) tell us how “The Secret” will work for us in our personal lives, but very little of importance regarding the world situation.

The so-called “elite” are those who have been attempting to gradually maintain control of the people and governments of the entire earth. They have had some success with control. They have brought war, poverty, starvation, murder and disease to multitudes - or so it seems. The actual fact is “We have met the enemy and he is us.”

Watch Gregg Braden's [SCIENCE OF MIRACLES](#). This will give you insight into the nature of reality - how you and I create it all. How the “enemy” out there is from within.

Using statistical methods, it's been ascertained that crime decreases, and war-like activities are at least drastically reduced, when the square root of 1 percent of the population of an area, or the entire earth, becomes peace inwardly. As Ghandi said, "We are the change we seek."

Experiments have been going on all over the world, with coordinated efforts on the internet. The calculated result of the square root of 1 percent for the earth population is 8 thousand people: the number required to affect positive change on the earth. The video, [THE SCIENCE OF MIRACLES](#) explains, in scientific terms, how this works.

The square root of 1 percent of the population of the people on the planet is approximately the number of so-called "elite" on earth. It's about 7 thousand people, the core membership.

What do the insane, so-called "elite" think about? Many of them are focused upon spiritual evil. They are focused upon their intent of **STARVATION, WAR, IMPRISONMENT** of mind and body, and **MASS DEATH, TORTURE** for humanity.

Of course, they do not just think, and feel, they work hard, day and night, to implement their control over governments, armies, navy's, air forces, and a greater number of people in the world. It is their obsession. They are disciplined in their thinking, and feeling, toward their goal.

Nothing distracts them. The "elite" are concerned about the rapidly increasing number of people on the planet who are becoming politically aware. However, there is a problem with some ordinary good people, (the non "elite") who know of the threat. They do not have a certain knowledge, a spiritual understanding, an awareness that the so-called "elite" do have. Yes, many of the good people on the earth are angry, and they work hard to disseminate information with documentary videos, with written materials, and they do what they can to convince their fellow humans that they must get involved, to speak out, to make political changes. All this is important, but what is missing?

When a person wants to quit smoking, how do they accomplish it? It's best done by not focusing on the cigarettes. How does a person become thin? They stop focusing on the fat. If they say, "I must get rid of the fat" that is counter productive. What do good people focus on? They focus on the "elite." They focus on the threats to **LIBERTY**, threats to **PROSPERITY**, threats, to **PEACE**. Their focus is with intense emotion. That is, exactly, what the "elite" want them to do.

Never deny the threats. Learn of them as much as possible, but **FOCUS ON THE OPPOSITE**. Focus on **PEACE**, **POWER** and **PROSPERITY** for the planet. Give your enthusiasm, your spiritual energy, towards the solution, not towards the problem. There are many positive facts regarding this endeavor of bringing **PEACE** **POWER** and **PROSPERITY** to the people of the planet. Many of the people are waking up to the threats posed by the so-called "elite", and the increase is rapid. The "elite" are in retreat. We, the people, outnumber the so-called "elite" 7 billion to 7 thousand. The **police and military** in the U.S. Are waking up rapidly in large numbers.

Remember these 3 axioms:

1. What you resist, persists.
2. Gratitude for what good fortune you have, brings more good to your life
3. There is a power in you and in our ancestors that created evil in this world. You can - with spiritual power - help us to eliminate it.

You must understand, deeply, that you created all of this, and the "elite" evil manifestation is nothing more than a reflection of you.

It is important that resistance, in the above number 1, be explained. If by resistance, one means to be active in informing many of the problem of a lack of peace in the world, that activity is not producing a persistence of the problem. It is attitude, and emotion, in regard to resistance that is important. When you are at peace with what conditions exist, with yourself, and everyone else, that is not activity that comes from desperation, or fear.

In 2009 the "elite" launched an attempt to [vaccinate](#) and poison nearly the entire world's population. Plans for military supervised forced vaccinations were almost implemented in the US, and masses worldwide refused vaccinations. This was what is called "critical mass" awareness. People picked up the danger because it was "in the air." In many cases, the written, and spoken, word was unnecessary.

Note that there are 7 billion people on the earth, compared to 7 thousand so-called "elite." That is a ratio of **one million to one**. In terms of spiritual power, it means nothing if the people do not regain **THE SECRET of THE LAW OF ATTRACTION** that the "elite" have tried to suppress from the masses.

Direct your emotion, your enthusiasm toward those positive facts, and don't focus on things that enhance fear.

Focus on the outcome for yourself, and the people of the planet, which is **PEACE POWER and PROSPERITY**.

Remember these two forces work within you. One is fear, and the other is love. The more you nurture love, by habit the less fear will be permitted to manifest, and soon enough you will not feel fear at all. The freedom movement, armed with use of **THE LAW OF ATTRACTION** will become more affluent, monetarily. This will enable them to move forward with greater strength.

There has been a war of the "elite" to gain complete control of the minds and hearts of the people of this planet. Control begins in the mind and heart, and that is how it extends to physical imprisonment.

To grow strong with your ability to use the law of attraction - which will affect your prosperity, your health, and your personal freedom - you must learn self-discipline with your thoughts and emotions. There is a great deal of written, video, and other material about this, but very few teaching how this actually applies to the freedom and world peace movements.

It's important to note that there is no fixed future for mankind! **YOU** are responsible for all you see and experience. **YOU** are the change you seek.
